Procious, WV 25164

Dear Mr. Peters,

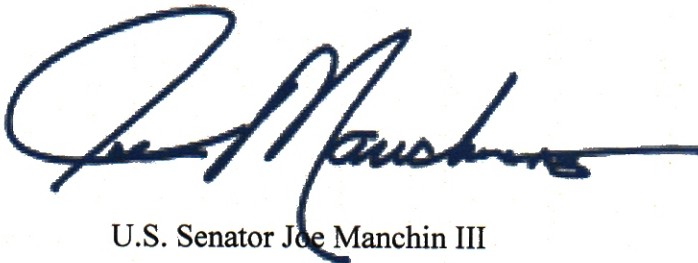

Thank you for your commitment to improving the quality of life for West Virginians.

I am pleased to report that Congress recently passed and the President signed into law an appropriations package that included your Fiscal Year (FY) 2024 Congressionally Directed Spending (CDS) project. As a result of your hard work, Clay-Roane Public Service District will receive \$1,000,000 for stabilization of water infrastructure. This was a highly competitive process with over 660 submissions and only 231 approved awards. Your project proved to be one of the best in the state.

As a member of the Senate Appropriations Committee, I was honored to endorse your project and secure it on your behalf. I deeply value the work of your organization and remain committed to ensuring that you receive your CDS funds in a timely manner so that you are able to execute your project consistent with the relevant federal requirements and administrative guidelines. In the coming months, should you need assistance regarding the administration of your award, please contact my Legislative Assistant for Appropriations, Nora Simón at [nora\\_simon@manchin.senate.gov](mailto:nora_simon@manchin.senate.gov).

Thank you again for your contribution towards strengthening our communities around the great state of West Virginia. It has truly been my honor to serve as your Senator. I look forward to continuing to work together to keep our state at the forefront of excellence.

Sincerely,

U.S. Senator Joe Manchin III
